

## Freedom of Information Request Reference No: FOIA 511

Thank you for your email of 08/12/11 requesting information about domestic appliance fires.

Your request followed by our response is as follows:

1. *How many domestic fires have been caused by domestic appliances (to include washing machines, dishwashers, refrigeration appliances, spin and tumble dryers, irons, kettles, TV, blanket/bed warmer, electric ovens, gas ovens, microwaves) in South Yorkshire Fire & Rescue Service's area in (a) 2010; and (b) 2011 (year to date). For each year, please provide numbers by appliance type.*
2. *In relation to the fires caused by domestic appliances, how many of these fires were attributed to (a) a faulty appliance; (b) misuse by the person; (c) unknown reason? Please provide this information for each of 2010 and 2011 year to date, and per appliance type.*

Please see attached three spreadsheets. The first spreadsheet named 'Raw Data' shows a full list of potentially relevant incidents that we have retrieved from our Incident Recording System, although not all of these are known to have been caused by domestic appliances. The second spreadsheet named 'Cause of Fire' is a summary of the cause of these fires with also the source of ignition.

3. *For each fire identified in response to Q2 as being caused by a faulty appliance, please identify the make of the relevant appliance or if this is unknown. Please also identify the model or if this is unknown.*

The third spreadsheet shows a breakdown of the make of the appliances where available. There is also a little more detailed information available within the Raw Data first spreadsheet. It has been difficult to exactly match your request with the information we have available and we hope you are able to retrieve the information you require from the spreadsheets we have provided.

4. *How many manufacturers have you approached in (a) 2011; and (b) 2010 regarding fire safety concerns with their appliances? For each manufacturer approached, please identify the make and if known the model of the relevant appliance.*

None.

5. *Do you have a policy to determine when it is appropriate to approach trading standards or a manufacturer about fire safety concerns with one of their appliances? If so, please provide details. For example, is there a certain number of fires that need to have been caused by that appliance? If there is a fatality, is there an automatic approach to the manufacturer or trading standards?*

No.

South Yorkshire Fire and Rescue					
<b>FOIA 511</b>	<i>How many domestic fires have been caused by domestic appliances in SYFR's area in 2010 and 2011. For each year please provide numbers by appliance type.</i>				
	<i>In relation to the fires caused by domestic appliances, how many of these fires were attributed to (a) a faulty appliance (b) misuse by person © unknown reason? Please provide this information for each of 2010 and 2011 year to date, and per appliance type.</i>				
	<i>For each fire identified in response to Q2 as being caused by a faulty appliance, please identify the make of the relevant appliance or if this is unknown. Please also identify the model or if this is unknown.</i>				
Date	Cause of Fire	Source of Ignition	What was the make & Model?	Make	Model
